ROSS E. MARSHALL

Ross E. Marshall is the **deputy director of maintenance, Ogden Air Logistics Center, Hill Air Force Base, Utah**. Mr. Marshall provides the center with direction on all matters pertaining to depot repair, modification and maintenance for the F-16 Fighting Falcon aircraft, A-10 Thunderbolt aircraft, C-130 Hercules aircraft, and the ICBM Peacekeeper and Minuteman missiles. This includes overhauls and repairs on landing gear, wheels and brakes for Air Force aircraft; rocket motors, air munitions and guided bombs; photonics equipment; training devices; electronics; avionics; instruments; hydraulics; power systems; software; and other aerospace-related components.

Mr. Marshall has served in a wide range of positions with various assignments during his tenure with the federal government. He was responsible for providing direction and establishing policy concerning a broad array of programs, processes and issues that affect national security strategy, resource allocations, and force employment doctrine at HQ USAF, the Pentagon. He has supervised engineers and technicians performing aircraft and missile maintenance, repair and overhaul. He provided management expertise over all aspects of the F-4 weapon system

and was the program manager for the F/A-18 Modification, Corrosion, and Paint Program (MCAPP). He served as agent for the center commander, administering depot competition workloads. He was the Senior Business Planner for the Depot Maintenance Activity Group (DMAG), and was responsible for the budget and execution of all DMAG funds.
